---

Michael,

Please see the attached Rite Aid report. Can you input the automatic increase on the two stores I've indicated on the report, please?

Thank you,

Team –

Please review the attached threshold report for today and let me know if you have any questions or concerns...as I am now running the reports, please update me should there be any changes with regards to the distribution of the e-mail or formatting.

Additional comments:

- \* Please submit all TCRs sooner rather than later so as to ensure any URGENT TCRs gets worked by close of business today.
- \* Any threshold that has reached 100% must have a TCR submitted regardless if the customer wants action taken or not.
- \* Warehouse Customers do not require customer feedback on threshold increases; please notify the DRA and they should adjust accordingly.

Remember, you will want to review what customer is on the reports and for any accounts that are quickly approaching their thresholds, we'll want to compare this month's activity to their previous purchases to see if this is unusual or if there's a pattern. I have updated the new Base Code Purchase Analysis Database with today's threshold information; you can utilize the new tool by clicking on the following link - [\\ddcf2020\NA\\$\DATABASERNA Support Solutions Department\Database \(Bishop\).mdb](\\ddcf2020\NA$\DATABASERNA Support Solutions Department\Database (Bishop).mdb)

If after contacting the customer's HQ there is a valid need to increase thresholds (wasn't simply a fat finger, panic, etc.) then we'll need to be sure to complete the TCR form in its entirety when submitting to the appropriate DRA; please copy myself and Elaine.

Thank you

Micheal Bishop
